

Profile of College ::

The college is one of the institutions run by Bilimora Vibhag Kelavni Mandal (BVKM), Bilimora. The society was founded by leading members of Bilimora. V.S.Patel college of Arts & Science was the first institute started by the Mandal in 1961, which was affiliated to Gujarat University and later to veer Narmad South Gujarat University, Surat. Today that seed has blossomed in to huge tree in the from of Academic college for teacher's education (B.Ed), commerce College, Pre-primary, primary, secondary school. The mandal offers a wide range of educational facilities right from Jr. K.G.Level and research work in M.Phil and Ph.D Course. The College has been pursuing its cherished tradition on promoting education and culture as emphasized by the ugc and NAAC.

About The Department ::

Department of Chemistry is an integral part of the college since its beginning and is one of the best run P.G. department in the area. The department has competent faculty members having Ph.D and research experience. It has several minor/ major research projects. Department of chemistry started M.Sc in organic chemistry in 1998 and our several college students stood first at university level on Several Occasions. We also established a counseling and placement cell, for overall personality development of students and provides them a good academic environment, So that they can meet the challenges of 21st century.

:: ABOUT THE WORKSHOP ::

Textile Industry is the Second largest industrial sector creating highest job opportunities in India, after agriculture.

This workshop will bring about an awareness of current trends and challenges in textile industry. The objective of workshop is to bestow latest technology of textile industry including dying, printing and finishing of fabrics to the Students pursuing master's degree in Chemistry.

The sessions arranged for the participants will bring about holistic understanding of the complete chain of processes from yarn → grey fabric → dying → printing → finishing as well as knowing about entire chemistry of wet processing of fabric.

Major Thrust of the workshop is to bridge the gap between academia and Industry.
